

Current Active Members - by state

Current Active Members - by zip code

These maps do not reflect the eight active members who did not provide state and/or zip code information in their accounts. The maps are meant to serve as an approximation of where our members are located. See table on the following page for exact numbers.

Current membership

As of September 2013, PNC had 148 active members in good standing, with memberships valid through January 1, 2014. This does include 7 members with pending accounts (they have initiated renewal, but have not yet paid or their payment has not yet cleared). The table to the right shows the breakdowns by state/province of these members.

Of these, 26 members have renewed or joined since the report was generated for the Spring Board Report (Feb 22, 2013). Of these 15 of them are new members. It is worth noting that “new” members can also refer to members who had memberships in a lapsed state for long enough to have their accounts archived by the system. The table in the lower right illustrates where our new members have joined from over the last two years.

Province/State (group)	
AB & Alberta	2
AK	5
BC & British Columbia	3
CA	2
ID	10
Montana & MT	11
NC	1
OR & Oregon	33
TX	1

Montana & MT		1
NC	1	

New members in 2012, 2013 by state

Membership Committee Activities

The Membership Committee met virtually on on June 13, 2013. Committee Members were given the names and contact information for new members who have joined in their state, as well as information on members in their state who have lapsed. Sally Bremner is spearheading an activity to create picture story board posters for each state to display at the 2013 PNC/MLA Annual Meeting.
