**Development Program Evaluation**
Valuing Your Library: Needs Assessment, Program

**Cynthia Oney, PhD.**

2006, where she provided evaluation training and consultation to libraries of Medicine. She is now the Director of the National Network of Libraries of Medicine. The conference will be held on October 15th, 2006, from 8:30 AM to 5:00 PM.

**Cynthia Oney, PhD.**

The conference will cover various topics related to the evaluation of library programs and services. The keynote speaker will be Dr. Cynthia Oney, a renowned expert in the field of library evaluation. The conference will include sessions on assessing library needs, evaluating library programs, and measuring the impact of library services.

**Systems and Change Workshops**
Decision Support, Information and Beyond: Deeply

**Michael Brunelle**

The workshop will focus on decision support for libraries, including the use of technology to support library decision-making processes. The workshop will be held on Saturday, October 16th, from 8:00 AM to 5:00 PM.

**Mary Magee**

Mary Magee is a medical librarian with the National Network of Libraries of Medicine. She represents the six-state Midcontinental Region as the National Library of Medicine’s program coordinator. The conference will also include workshops on management and leadership in the library profession.

**Sunday, October 15th, 8:00 AM—5:00 PM**

- **Cynthia Oney, PhD.**
  - Development Program Evaluation: Valuing Your Library - Needs Assessment, Program

**Saturday, October 16th, 8:00 AM—5:00 PM**

Abstract:

If you were born between 1946 and 1964, you are one

of 75 million baby boomers, generation that has transformed

audience, and our health-care system into something

familiar; health-care reform, will alter preconceptions on aging-

friendly and health-friendly. Metter will offer perspectives for

works for everyone; Drawing on 30 years of practice in older-

communities, and our health-care system, she will talk about

need for a more circular, holistic health-care system that

The U.S. health care system needs to change and positive change in patient care and physician education is required. A family medicine residency program is in place at the School of Medicine in Seattle, AAFP and the University of Washington. The director of the residency program, Dr. Eppley, is presenting the new models of innovation in our new healthcare environment.

**Tuesday, October 18 | 10:40 a.m.—11:40 a.m.**

Guiding Development: Librarians in Partnerships
about two shelf-spaced online resources.

Through our years, we've learned — both heartbreaking and painful — that the library is not just a physical structure; it's a living, breathing entity that must continuously adapt to meet the needs of its users.

Since I am responsible for marketing and outreach, that means developing relationships with our patrons and various organizations to ensure that our resources are utilized to their full potential.

Efficiency

Framing the Jargon Surrounding Comparative Effectiveness

They occur:

- Disasters, while not part of the scope, may be accommodated if
  the Institute's library is available for training of contingency
  librarians. Specific
- Disasters, such as fires, are funds through a "local" or
  "remote" approach to the library

- Demonstrate the latest legal and ethical issues being used to help
